The audio recording will also be available at www.cohbar.com during the same period.

About CohBar

CohBar (NASDAQ: CWBR) is a clinical-stage biotechnology company leveraging the power of the mitochondria and the peptides encoded in its genome to develop potential breakthrough therapeutics targeting chronic and age-related diseases with limited to no treatment options. CohBar has assembled the leading position in exploring the mitochondrial

genome and its utility for the development of novel therapeutics, including world-renowned expertise in mitochondrial biology, a broad intellectual property estate, key opinion leaders and disciplined drug discovery and development processes. CohBar is utilizing its Mito+ platform to identify and develop modified versions of natural peptides called analogs to treat a variety of serious conditions, with a focus on diseases involving inflammation and fibrosis.
