Both on the road and in the studio, his interviewing style is both engaging and conversational.

About Medovex

Medovex was formed to acquire and develop a diversified portfolio of potentially ground breaking medical technology products. Criteria for selection include those products with potential for significant improvement in the quality of patient care combined with cost effectiveness. The Company's first pipeline product, the DenerveX device, is intended to provide long lasting relief from pain associated with facet joint syndrome at significantly less cost than currently available options. DenerveX is not yet commercially available. To learn more about Medovex Corp., visit www.medovex.com
