BALL CORPORATION

RECONFIRMED QUANTIFIED FINANCIAL BENEFITS (SYNERGIES) STATEMENTS

On 19 February 2015, the Boards of Ball Corporation ("**Ball**") and Rexam PLC ("**Rexam**") announced the terms of a recommended cash and share offer by Ball UK Acquisition Limited ("**Bidco**"), a wholly-owned subsidiary of Ball, for the entire issued and to be issued share capital of Rexam (the "**Offer Announcement**").

The Offer Announcement included estimated cost savings and synergies arising from the Offer, which constituted Quantified Financial Benefits Statements under Rule 28 of the Code. These statements were reported on by PricewaterhouseCoopers LLP, London, United Kingdom ("**PwC UK**"), as Ball's reporting accountant, and Greenhill & Co. International LLP ("**Greenhill**") as Ball's lead financial adviser as required.

Today, Ball filed a proxy statement in the United States with the U.S. Securities and Exchange Commission which repeats these estimated cost savings and synergies (together, the "**Reconfirmed Quantified Financial Benefits Statements**"), and PwC UK and Greenhill have confirmed that the original reports, dated 19 February 2015, which had been provided remain valid for the Reconfirmed Quantified Financial Benefits Statements.

For reference only, the Reconfirmed Quantified Financial Benefits Statements and copies of the reports by PwC UK and Greenhill are set out in Appendix I of this announcement. A copy of the proxy statement is available at:

The New Ball Shares to be issued pursuant to the Offer have not been registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act. No Profit Forecast

No statement in this announcement is intended as a profit forecast or a profit estimate and no statement in this announcement should be interpreted to mean that earnings per Ball Share or Rexam Share for the current or future financial years would necessarily match or exceed the historical published earnings per Ball Share or Rexam Share.

Quantified Financial Benefits

Apart from the Reconfirmed Quantified Financial Benefits Statements, no statement in this announcement should be construed or interpreted to mean that the Combined Group's earnings in the first full year following the effective date of the Scheme, or in any subsequent period, would necessarily match or be greater than or be less than those of Ball and/or Rexam for the relevant preceding financial period or any other period.

Disclosure requirements of the Code

Under Rule 8.3(a) of the Code, any person who is interested in 1 per cent. or more of any class of relevant securities of an offeree company or of any securities exchange offeror (being any offeror other than an offeror in respect of which it has been announced that its offer is, or is likely to be, solely in cash) must make an Opening Position Disclosure following the commencement of the offer period and, if later, following the announcement in which any securities exchange offeror is first identified. An Opening Position Disclosure must contain details of the person's interests and short positions in, and rights to subscribe for, any relevant securities of each of (i) the offeree company and (ii) any securities exchange offeror(s). An Opening Position Disclosure by a person to whom Rule 8.3(a) applies must be made by no later than 3.30 pm (London time) on the 10th Business Day (as defined in the Code) following the commencement of the offer period and, if appropriate, by no later than

3.30 pm (London time) on the 10th Business Day (as defined in the Code) following the announcement in which any securities exchange offeror is first identified. Relevant persons who deal in the relevant securities of the offeree company or of a securities exchange offeror prior to the deadline for making an Opening Position Disclosure must instead make a Dealing Disclosure.

Under Rule 8.3(b) of the Code, any person who is, or becomes, interested in 1 per cent. or more of any class of relevant securities of the offeree company or of any securities exchange offeror must make a Dealing Disclosure if the person deals in any relevant securities of the offeree company or of any securities exchange offeror. A Dealing Disclosure must contain details of the dealing concerned and of the person's interests and short positions in, and rights to subscribe for, any relevant securities of each of (i) the offeree company and (ii) any securities exchange offeror, save to the extent that these details have previously been disclosed under Rule 8. A Dealing Disclosure by a person to whom Rule 8.3(b) applies must be made by no later than 3.30 pm (London time) on the Business Day (as defined in the Code) following the date of the relevant dealing.

Disclosures are therefore required in the shares of Ball and Rexam.

If two or more persons act together pursuant to an agreement or understanding, whether formal or informal, to acquire or control an interest in relevant securities of an offeree company or a securities exchange offeror, they will be deemed to be a single person for the purpose of Rule 8.3.

Opening Position Disclosures must also be made by the offeree company and by any offeror and Dealing Disclosures must also be made by the offeree company, by any offeror and by any persons acting in concert with any of them (see Rules 8.1, 8.2 and 8.4).

Details of the offeree and offeror companies in respect of whose relevant securities Opening Position Disclosures and Dealing Disclosures must be made can be found in the Disclosure Table on the Panel's website at www.thetakeoverpanel.org.uk, including details of the number of relevant securities in issue, when the offer period commenced and when any offeror was first identified. You should contact the Panel's Market Surveillance Unit on +44 (0)20 7638 0129 if you are in any doubt as to whether you are required to make an Opening Position Disclosure or a Dealing Disclosure.

Requesting hard copy documents

In accordance with Rule 30.2 of the Code, a person so entitled may request a copy of this announcement (and any information incorporated into it by reference to another source) in hard copy form. Appendix I – Reconfirmed Quantified Financial Benefits Statements

Part A – Reconfirmed Quantified Financial Benefits Statements

The Ball Responsible Officers, having reviewed and analysed the potential benefits of the Offer, based on their experience of operating in the packaging sector and taking into account the factors Ball can influence, believe that the Combined Group, comprising both Ball and Rexam in their entirety, will be able to achieve net annual cost synergies of approximately US\$300 million in the 3rd financial year of operations of the Combined Group.

The principal sources of quantified synergies are as follows:

- approximately 44 per cent. of the identified synergies are expected to be generated from lower general and administrative ("G&A") expenses
- approximately 32 per cent. of the identified synergies are expected to be generated from reduced costs due to optimising global sourcing via standardisation and greater purchasing volume for various direct and indirect materials
- approximately 22 per cent. of the identified synergies are expected to be generated from lower freight, logistics and warehousing costs
- approximately 2 per cent. of the identified synergies are expected to be generated from sharing best practices across the Combined Group to lower production costs and optimising the expanded production capabilities of the Combined Group

In addition to these quantified synergies, the Ball Responsible Officers believe that significant further value can be created through additional opportunities, including:

- revenue opportunities arising as a result of (i) the creation of a combined business with a global footprint that more closely matches the footprint of its customers and needs for innovative products; and (ii) the Combined Group's ability to provide a better, more cost-effective service to its customers
- balance sheet improvements through improved working capital, including better inventory management as a result of the larger plant network.

It is envisaged that the realisation of the identified synergies will result in non-recurring integration costs of approximately US\$300 million over the first three years. It is anticipated that the integration costs will have been incurred in the 3rd financial year of operations of the Combined Group.

Aside from the integration costs, no material dis-synergies are expected in connection with the Offer. The expected synergies will accrue as a direct result of the success of the Offer and would not be achieved on a standalone basis."

Further information on the bases of belief supporting the Quantified Financial Benefits Statement, including the principal assumptions and sources of information, is set out below:

Bases of Belief

Initial discussions were held between senior finance and strategy personnel from Ball and Rexam in January 2015 for the purposes of allowing Ball to quantify initial estimates of potential synergies and associated costs relating to the Offer.

Ball then established a framework to refine these estimates through diligence discussions. Ball engaged with the relevant functional heads and other personnel at Ball and Rexam to provide input into the development process so it could assess and reach a conclusion on the nature and quantum of the identified synergy initiatives.

In preparing the Quantified Financial Benefits Statement, both Ball and Rexam have shared certain information to facilitate Ball's analysis and evaluation of the potential synergies available as a result of the Offer. In circumstances where data has been limited for commercial or other reasons, estimates and assumptions have been made to aid the development of individual synergy initiatives. Where appropriate, assumptions were used to estimate the costs of implementing the new structures, systems and processes required to realise the synergies.

The cost bases used as the basis for the quantification exercise are 12 months actual cost base to December 2014.

The exchange rate used to convert between USD and GBP is 1.524. The exchange rate used to convert between USD and EUR is 1.131.

Reports

PricewaterhouseCoopers, as reporting accountants to Ball has provided a report under Rule 28.1(a) of the Code stating that, in its opinion, the Quantified Financial Benefits Statement has been properly compiled on the basis stated.

Greenhill, as lead financial adviser to Ball, has provided a report for the purposes of the Code stating that, in its opinion and subject to the terms of the report, the Quantified Financial Benefits Statement, for which the Ball Responsible Officers are responsible, has been prepared with due care and consideration.

Copies of these reports are included in Parts B and C of Appendix IV of the Offer Announcement. PricewaterhouseCoopers and Greenhill have given and not withdrawn their consent to the publication of their reports in the form and context in which they are included.

Notes

1. The statements of estimated cost savings and synergies relate to future actions and circumstances which, by their nature, involve risks, uncertainties and contingencies. As a result, the cost savings and synergies referred to may not be achieved, or may be achieved later or sooner than estimated, or those achieved could be materially different from those estimated. No statement in the Quantified Financial Benefits Statement, or this announcement generally, should be construed as a profit forecast or interpreted to mean that Ball's earnings in the full first full year following the Offer, or in any subsequent period, would necessarily match or be greater than or be less than those of Ball and/or Rexam for the relevant preceding financial period or any other period.

2. Due to the scale of the Combined Group, there may be additional changes to the Combined Group's operations. As a result, and given the fact that the changes relate to the future, the resulting cost savings may be materially greater or less than those estimated.
3. In arriving at the Quantified Financial Benefits Statement, the Ball Responsible Officers have assumed that:
 - a. there will be no significant impact on the underlying operations of either business; and
 - b. there will be no material change to macroeconomic, political or legal conditions in the markets or regions in which the Combined Group operates which will materially impact on the implementation of or costs to achieve the proposed cost savings; and
 - c. there will be no material change in exchange rates.
