QuickLogic to Showcase Latest eFPGA and Sensor Processing Solutions at ARM TechCon 2017

SUNNYVALE, Calif., Oct. 20, 2017 (GLOBE NEWSWIRE) -- QuickLogic Corporation (NASDAQ:QUIK), a developer of ultra-low power multi-core voice-enabled SoCs, embedded FPGA IP, display bridge and programmable logic solutions, will demonstrate its ArcticPro™ Embedded FPGA (eFPGA) technology and showcase its EOS™ S3 Sensor Processing Platform at ARM TechCon 2017 in Santa Clara, CA. ARM TechCon is one of the largest events showcasing the latest advances, from silicon design to software development.

QuickLogic will demonstrate how the ArcticPro eFPGA technology is enabling SoC designers to reduce their time-to-market and R&D costs, generate revenue and gross margins, as well as address fragmented markets where features and standards are still emerging. The exhibit will also include an ArcticPro™ eFPGA IP evaluation board that demonstrates a test chip based on the SMIC 40LL process and an EOS™ S3 Sensor Processing Platform based on the GLOBALFOUNDRIES' 40LP process, which features always-on, always aware voice processing with industry-leading ultra-low power consumption.

Booth:	803
Venue:	Santa Clara Convention Center, Santa Clara, CA
Date & Time:	Wednesday, October 25 from 10:30 a.m. – 6:30 p.m.
	Thursday, October 26 from 10:30 a.m. – 5:30 p.m.

About QuickLogic

QuickLogic Corporation (NASDAQ:QUIK) enables OEMs to maximize battery life for highly differentiated, immersive user experiences with Smartphone, Wearable, Hearable and IoT devices. QuickLogic delivers these benefits through industry leading ultra-low power customer programmable SoC semiconductor solutions, embedded software, and algorithm solutions for always-on voice and sensor processing. The company's embedded FPGA initiative also enables SoC designers to easily implement post production changes, and increase revenue by providing hardware programmability to their end customers.
