SEI Institutional Group Renews HFMA Peer Reviewed Designation

OAKS, PA -- (Marketwired) -- 10/07/13 -- The Healthcare Financial Management Association (HFMA) today announced that, following a rigorous review, [SEI's](#) (NASDAQ: SEIC) [Institutional Group](#) has once again achieved the "Peer Reviewed by HFMA[®]" standard for the company's Institutional [investment solution for healthcare](#) organizations (HealthcareConnect 360).

SEI's healthcare solution combines investment management with proprietary technology and strategic advice to provide healthcare systems and hospitals with a comprehensive view of the relationship between defined benefit, nonprofit, and unrestricted investable asset pools and the organizations' balance sheets. This comprehensive view of all asset pools, coupled with SEI's leading [fiduciary management](#) process, benefits the company's healthcare clients by providing services focused on balance sheet protection, improved debt capacity, stronger assessments by major credit rating agencies, risk management, and true diversification across investment managers and asset classes.

"SEI's investment solution for healthcare providers integrates multiple asset pools, including operating, foundation and pension plan assets, with corporate finances to create one holistic investment strategy. This approach, combined with our demonstrated expertise in outsourced fiduciary management, enables our clients to focus on broader organizational strategy, and better aligns portfolio objectives with balance sheets, debt covenants, capital financing, and other key financial metrics," said Craig Standen, Director of Healthcare Advice, SEI's [Institutional Group](#). "We are pleased to continue to receive the 'Peer Reviewed by HFMA[®]' designation year after year, and believe it is a testament to the value that healthcare organizations find in SEI's custom solutions and expert advice."

HFMA's Peer Review process provides healthcare financial managers with an objective, third party evaluation of products and services used in the healthcare workplace. The eleven-step process includes a Peer Review panel review comprised of current customers, prospects who have not made a purchase, and industry experts. Peer Review status of the product or service and its performance claims are based on effectiveness, quality and usability, price, value, and customer and technical support.

"We're pleased to renew SEI's HFMA Peer Reviewed designation," says HFMA President and CEO Joseph J. Fifer, FHFMA, CPA. "The HFMA Peer Review process, through rigorous

evaluation, assures our members that the reviewed product or service meets an objective third-party assessment of overall effectiveness, quality, and value."

About SEI's Institutional Group

SEI's Institutional Group is one of the first and largest global providers of outsourced fiduciary management investment services. The company began offering these services in 1992 and today acts as a fiduciary manager to more than 450 retirement, nonprofit and healthcare clients in seven different countries. Through a flexible model designed to help our clients achieve financial goals, we provide asset allocation advice and modeling, investment management, risk monitoring and stress testing, active liability-focused investing and integrated goals-based reporting.
