Management Commentary

"Completing the restatement is an important milestone for Assure Holdings," said John A. Farlinger, Assure's Executive Chairman and interim CEO. "First, I want to acknowledge and thank our shareholders for their patience and support as we have worked through this difficult process. Further, I want to thank our dedicated board of independent directors, as well as our employees, who have continued to deliver outstanding service to patients and

partner physicians. While the events over the past five months have been challenging, as they have put our financial reporting and our trading on hold, we have continued to focus on improving our governance process, profitably growing our business and launching new partners.

“Despite the disruption, the fundamentals of our business are sound, which is a testament to the depth of our field-level talent and our operational model. Our strong revenue and adjusted EBITDA growth supports the continued commercial acceptance of our neuromonitoring platform and our belief in the future of this business. We look forward to discussing these results in more detail after our first quarter filing is completed.”

Peter Csapo, Assure’s CFO, commented, “We are focused on managing our business with rigor and discipline. We are improving our internal control environment, and we expect to continue to achieve growth, while focusing on the acceleration of cash collections.”

2017 Financial Results

Total revenue in 2017 increased 149% to \$15.8 million compared to \$6.4 million in 2016. The increase was due to increased cases generated from the Company’s existing surgeon network and the onboarding of additional surgeons.

Gross margin remained robust at 83.4% compared to 83.8% in 2016 as scaling the business has not disrupted margins.

Total operating expenses in 2017 increased to \$19.7 million compared to \$1.2 million in 2016. The increase was primarily driven by a one-time, non-cash expense of \$16.0 million due to equity compensation expense for the performance stock grant for achieving an adjusted EBITDA threshold in 2017. The main beneficiary of this stock grant is in discussions with the board to modify and defer the grant until the cash is collected for cases in 2017 to support the equivalent adjusted EBITDA threshold established for fiscal year 2017. Excluding this charge, operating expenses increased due to multi-state expansion initiatives, key personnel hires, as well as ongoing corporate expenses in the wake of becoming a public company and an ongoing reporting issuer as of May 29, 2017.

Net loss in 2017 was \$5.5 million or \$(0.17) per diluted share, compared to net income of \$3.6 million or \$0.14 per diluted share in 2016. The 2017 per diluted share amount reflects 8.1 million of incremental diluted shares relating to the Company’s merger with Montreux Capital and subsequent public listing.

Adjusted EBITDA increased 102% to \$12.0 million compared to \$5.9 million in 2016 due to the increase in cases performed, which improved revenue and earnings from the equity method of investment in Assure’s PNEs. The Company defines adjusted EBITDA as net income/(loss) excluding interest, taxes, depreciation, stock-based compensation, performance share compensation, provision for broker warrant fair value, provision for stock option fair value and deemed shares costs related to the reverse takeover merger.

2016 Financial Restatement Summary

- Revenue increased by \$0.8 million from the previously reported amount or 15% additional revenue.
- Earnings from the equity method of investment in our PNEs increases \$0.4 million or 41% additional earnings from our partners.
- Income before taxes increases \$1.2 million or a 27% increase in earnings before taxes, however, net income after taxes declined \$0.4 million. Net income declined due to a change in the tax provision for the restated financials based on a cash basis rather than previously utilized accrual method for tax purposes. The change in the provision method has a near-term benefit, which is realized in the 2017 financials.
- The diluted income per share declined by \$0.02 due to the tax provision change previously mentioned.
