GREENWOOD VILLAGE, Colo.--(BUSINESS WIRE)-- National Storage Affiliates Trust ("NSA" or the "Company") (NYSE: NSA) today reported the Company's third quarter 2017 results.

## **Key Highlights**

- Net income was \$11.2 million for the third quarter of 2017, an increase of \$3.3 million compared to \$7.9 million for the third quarter of 2016.
- Core funds from operations ("Core FFO") was \$23.8 million, or \$0.33 per share, for the third quarter of 2017, an increase of 13.8% per share compared to \$18.2 million, or \$0.29 per share, for the third quarter of 2016.
- Same store NOI was \$30.5 million for the third quarter of 2017, an increase of 6.7% compared to \$28.6 million for the third quarter of 2016, driven by an increase of 5.4% in same store total revenues and a 2.4% increase in same store property operating expenses.
- Same store average annualized rental revenue per occupied square foot was \$11.83 for the third quarter of 2017, an increase of 5.7% compared to \$11.19 for the third quarter of 2016.
- Acquired 19 self storage properties during the third quarter of 2017 for \$123.8 million.

Arlen Nordhagen, Chief Executive Officer and Chairman, commented, "As expected, we had another great quarter with strong year-over-year increases in same store NOI and Core FFO per share. We acquired 19 properties for \$124 million during the third quarter and closed on an additional 28 properties for \$175 million subsequent to September 30. When combined with the \$59 million of joint venture acquisitions we've completed thus far in 2017, we've acquired and made investments in 67 properties totaling nearly \$460 million in value. In October we completed our first public perpetual preferred share offering for gross proceeds of \$173 million. We were very pleased by how well our first preferred offering was received as we further strengthen our balance sheet by broadening our sources of capital. The

preferred offering and the \$85 million of secured debt financing that we completed during the third quarter provide us the financial flexibility to continue to execute on our growth strategy as we close out 2017 and look ahead to 2018."

Third quarter 2017 net income increased \$3.3 million, driven primarily by incremental NOI generated from 65 self storage properties acquired between October 1, 2016 and September 30, 2017 and same store NOI growth, partially offset by increases in depreciation and amortization, interest expense and general and administrative expenses.

Third quarter 2017 basic earnings per share increased \$0.03 per share and diluted earnings per share increased \$0.03 per share. In addition to the items affecting net income described above, the comparison of earnings per share amounts between periods is affected by the allocation of net income to noncontrolling interests pursuant to GAAP. Additional information on NSA's allocation of net income (loss) can be found in the Glossary to the supplemental financial information under "Hypothetical Liquidation at Book Value Method."

Third quarter 2017 FFO per share increased 23.1% and Core FFO per share increased 13.8%. distributions to subordinated performance unitholders.

### **Investment Activity**

During the third quarter of 2017, NSA invested \$123.8 million in the acquisition of 19 self storage properties located in nine states, encompassing over 1.3 million rentable square feet configured in approximately 10,200 storage units.

Subsequent to September 30, 2017, NSA acquired 28 additional self storage properties located in eight states, for a total investment of approximately \$174.5 million encompassing approximately 1.8 million rentable square feet configured in approximately 13,700 storage units. ### **Balance Sheet**

In August 2017, NSA entered into an agreement with a single lender for an \$84.9 million debt financing secured by 22 of the Company's self storage properties. This interest-only loan matures in August 2027 and has a fixed interest rate of 4.14%. The net proceeds from the debt financing were used to repay amounts outstanding under NSA's revolving line of credit.

In October 2017, NSA completed an underwritten public offering of 6,900,000 of its 6.000% Series A Cumulative Redeemable Preferred Shares of Beneficial Interest ("Preferred Shares"), which included 900,000 Preferred Shares sold upon the exercise in full by the underwriters of their option to purchase additional Preferred Shares, resulting in gross proceeds to the Company of approximately \$173 million. Generally, the Preferred Shares become redeemable by the Company beginning in October 2022 for a cash redemption price of \$25.00 per share. NSA used the net proceeds from the offering to repay amounts outstanding under its revolving line of credit, and subsequently redrew under its revolving line of credit to fund the self storage property acquisitions described above.

### **Dividends**

On August 24, 2017, NSA's Board of Trustees declared a quarterly cash dividend of \$0.26 per common share, which was paid on September 29, 2017 to shareholders of record as of September 15, 2017.

(1) Amounts represent distributions declared for subordinated performance unitholders and DownREIT subordinated performance unitholders for the periods presented.

(2) NSA combines OP units and DownREIT OP units with common shares because, after the applicable lock-out periods, OP units in the Company's operating partnership are redeemable for cash or, at NSA's option, exchangeable for common shares on a one-for-one basis and DownREIT OP units are also redeemable for cash or, at NSA's option, exchangeable for OP units in the Company's operating partnership on a one-for-one basis, subject to certain adjustments in each case. Subordinated performance units, DownREIT subordinated performance units, and LTIP units may also, under certain circumstances, be convertible into or exchangeable for common shares (or other units that are convertible into or exchangeable for common shares). See footnote<sup>(3)</sup> for additional discussion of subordinated performance units, DownREIT subordinated performance units, and LTIP units in the calculation of FFO and Core FFO per share and unit.

- (3) Adjustment accounts for the difference between the weighted average number of shares used to calculate diluted earnings per share and the weighted average number of shares used to calculate FFO and Core FFO per share and unit. Diluted earnings per share is calculated using the two-class method for the company's restricted common shares, the treasury stock method for certain unvested LTIP units, and includes the assumption of a hypothetical conversion of subordinated performance units, DownREIT subordinated performance units and LTIP units into OP units, even though such units may only be convertible into OP units (i) after a lock-out period and (ii) upon certain events or conditions. For additional information about the conversion of subordinated performance units and DownREIT subordinated performance units into OP units, see Note 10 to the Company's most recent Annual Report on Form 10-K, filed with the Securities and Exchange Commission. The computation of weighted average shares and units for FFO and Core FFO per share and unit includes all restricted common shares and LTIP units that participate in distributions and excludes all subordinated performance units and DownREIT subordinated performance units because their effect has been accounted for through the allocation of FFO to the related unitholders based on distributions declared.
- (4) Represents the effect of adjusting the numerator to consolidated net income (loss) prior to GAAP allocations for noncontrolling interests and the application of the two-class method and treasury stock method, as described in footnote (3).
