Company Overview

Ecosphere Technologies, Inc. (OTCBB:ESPH) is an innovative U.S. technology licensing and manufacturing company that develops environmental solutions for global markets. We help industry increase production, reduce costs, and protect the environment through a portfolio of more than 35 patented and patent-pending technologies: Technologies like Ozonix® and Ecos PowerCube®, which are licensable across a wide range of industries and applications throughout the world.

Investment Highlights

- Ecosphere Technologies has a compelling and unique position as an IP company focused on the water value chain with leverage to critical applications across multiple sectors and an established presence in the energy markets.
- Numerous emerging opportunities for our patented Ozonix® technology, such as Agriculture, Food & Beverage, Industrial, Mining, Marine and Municipal wastewater treatment.
- Our Ozonix® technology has crossed the inflection point from development and pilot scale into a fully-commercialized product
- Significant value in IP portfolio still in early stages of monetization.
- Recent transaction with Fidelity National Environmental Solutions ("FNES"), formerly Ecosphere Energy Services, improves balance sheet and cash positions.
- Ecosphere now holds an enhanced position in new partner development.
