ESG Scorecard

July 2022
Commitment

Sustainability Report

Our inaugural 2020 Global Responsibility Report was released in October 2021. The report highlights Herbalife Nutrition’s dedication to enable progress and sustainable growth in communities worldwide and outlines the commitment to operate in a socially responsible manner including supporting social, environmental, and philanthropic initiatives that yield significant and measurable results to nourish people and the planet.

United Nations Sustainable Development Goals (UNSDGs)

Our corporate sustainability programs focus on good nutrition to help build thriving, vibrant communities around the world. We are dedicated to improving communities by aligning our strategy with targets outlined and categorized in the UN SDGs, specifically Goal 1 (No Poverty), Goal 2 (Zero Hunger), Goal 3 (Good Health and Well-being), Goal 12 (Responsible Consumption and Production) and Goal 13 (Climate Action). Please find various initiatives and programs that are aimed at the targeted goals in our 2020 Global Responsibility Report.

UN Global Compact

Herbalife Nutrition is a signatory member of the UN Global Compact since 2020.
Acting ethically and responsibly and following our Code of Conduct is fundamental to doing business the right way. For more information, please see Our Code of Conduct.

The Company encourages all individuals to immediately report any concerns or suspected violation of this Policy, our values, Code of Conduct, global or local policies or the law. Employees may bring their complaint to their supervisor, the Ethics & Compliance Office, the Legal Department, or the Human Resources Department, as appropriate. We also offer several additional ways for our employees, as well as contractors, distributors, customers, vendors, or members of the general public to report concerns or suspected violations. Reports may be anonymous, except where restricted by local law. The Company prohibits and will not tolerate retaliation against any employee for making a good faith complaint or for participating in an investigation of such a complaint. Several different methods to report are available on our webpage.
Governance

Diversity Considered during Director Nomination

The Board believes that the Board, as a whole, should possess a combination of skills, professional experience and diversity of backgrounds necessary to oversee the company's business. In addition, the Board believes that there are certain attributes that every director should possess, as reflected in the Board’s membership criteria. Accordingly, the Board and the Board’s nominating and corporate governance committee consider the qualifications of directors and director candidates individually and in the broader context of the Board’s overall composition, as well as the company’s current and future needs. The Board’s criteria include business experience and skills, independence, judgment, integrity, the ability to commit sufficient time and attention to Board activities and the absence of potential conflicts with the company’s interests. The nominating and corporate governance committee seeks a variety of occupational, educational and personal backgrounds in order to obtain a range of viewpoints and perspectives and to enhance the diversity of the Board as a group in areas including professional experience, geography, race, gender, ethnicity, and age.

Board Oversight of ESG

The Board’s ESG Committee was formed in 2020 and provides Board oversight on the company’s significant environmental, social and related governance activities and practices, including policies, programs and practices, strategy, stakeholder engagement and risks. For the ESG Committee charter, please visit ir.herbalife.com/committee-details/esg.

Executive Responsibility over ESG

The Herbalife Nutrition Executive Committee, made up of the CEO, the CEO’s direct reports and top functional leaders, have assumed oversight of the sustainability agenda. The Executive Committee provides executive direction and ensures integration of Global Responsibility goals across functional and regional strategies.

Product

Genetically Modified (GM) Ingredients

We commit to providing our customers with choice and continuously providing non-GM alternatives where there is demand and is feasible. For more information, please see the Bioengineered Ingredients Statement.

Animal Testing Policy

Herbalife Nutrition does not conduct tests on animals for any of our outer nutrition products. As for inner nutrition products, we do not conduct any animal testing except for satisfying legal obligations and regulatory bodies. For more information, please see the Animal Testing Policy.
Product Marketing, Labeling and Claims

Responsible Marketing Policy

In its corporate materials, the company does not advertise products or services to children under the age of 12. For more information, please see the Marketing to Children Policy.

Product Labeling and Claims Policy

We commit to providing fact-based and easy-to-understand information on product labels, which informs our consumers’ choices for a healthy diet and lifestyle. We also commit to making only adequately substantiated claims on our product labels, other collateral and in advertising. For more information, please see the Product Labeling and Claims Policy.

At Herbalife Nutrition, we are passionate about protecting the future of our planet by making the right choices in an environment where natural resources are constrained. Our commitment to conserving the environment is important to our distributors and consumers, who care about how their food is grown and produced. We are committed to full compliance with all applicable legal environmental requirements and aspire to continuously improve our environmental performance. For more information, please see the Environmental Sustainability Statement.

Climate change is one of the greatest challenges that will directly affect business, society and ecosystems. Herbalife Nutrition is committed to doing our part to help mitigate climate change risks. Herbalife Nutrition supports the long-term goal of sustainable development and we are committed to doing our part to reduce GHG emissions across our value chain to limit global warming to 1.5°C. For more information, please see the Climate Change Action Statement.

Water Conservation Measures

Herbalife Nutrition has implemented various water conservation measures in our offices and facilities, including installation of automatic handwashing and waterless urinal, using treated wastewater for cooling tower, conduction of ultra-high temperature cooling water to the plant cooling water system, reducing water in major cleans for powder blending by using power washers, and changing landscape to drought tolerant plants. For more information, please see the Environmental Sustainability Statement.

Environmental

Supplier Code of Conduct

For business-critical direct suppliers that agree to participate, we aspire to have a third party examine them for compliance with our Supplier Code of Conduct by the end of 2022. We plan to segment other suppliers into different tiers and update our commitment in due course.

Recyclability of Our Packaging by Customers

Each region has recycling programs ranging from awareness and education campaigns for recycling and upcycling to creating collection sites in our warehouses for our distributors, members, and customers. Local recycling organizations pick up recycled materials from these collection sites. For more information, please see the Environmental Sustainability Statement.
