

# Interpace Diagnostics®

Resolving Diagnostic Uncertainty

## Special Statement Regarding COVID-19

Dear Clients,

In the midst of the rapidly evolving COVID-19 situation, we would like you to know that we are closely following the recommendations of the CDC, WHO, and other public healthcare entities to minimize the risk of transmission and protect the health and well-being of our employees.

Another priority during this time is to continue to provide our diagnostic testing services and efficiently address our clients' needs. To that end, our labs will continue to accept and process samples and issue results reports to our customers. This is the most important component of our Business Continuity Plan.

Further, our Client Services team will still be accessible via phone, fax, and email. You can count on our team to continue providing the excellent service you have come to expect from us. All queries will be answered in a timely manner.

If anything changes, we will provide further communication. Additionally, your Regional Account Manager can help address any concerns or supply needs that you may have.

While the spread and impact of COVID-19 is continually changing, what is not changing is our focus and commitment to continue to serve you and your patients.

Sincerely,

Greg Richard

Chief Commercial Officer, Interpace Diagnostics
