Neighbors,

We are happy to have opened our new Western PA branch office in Warrendale.

Limbach is a full service mechanical contractor. Which means not only can we help you plan, design and engineer your HVAC project, but when you are ready, we build and construct it. That's not where it ends though! Our customized PM programs make sure it serves your needs efficiently and reliably throughout its life.

We have been a leader at IAQ (Indoor Air Quality) for decades. In recent months we have been able to assist our customers through experience and the newest technologies to make their workplace air safer. If you need help navigating which solution is best to create the cleanest and healthiest air for your returning employee's, Limbach stands ready to be your resource.

We would love to meet you! We can stop by your facility or have a virtual meeting. At Limbach, we bring value to the building owner. Let us show you how!

COVID-19 Risk Mitigation

Air Handler Disinfection

Air Balancing

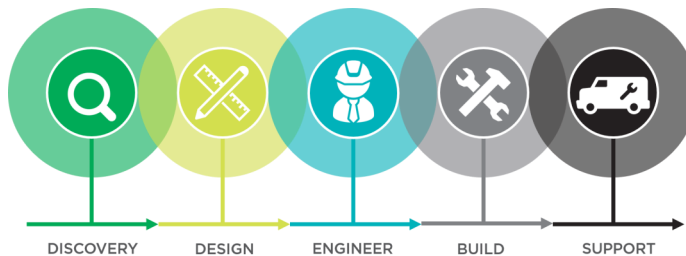

Air Filtration Upgrades

Air Scrubbers / UVGI / Bipolar Ionization

Mechanical Service 3.0

Our technicians are equipped with the next generation of software. Let us show you the diagnosis and solution without you even having to leave your desk with our XO1 cloud based technology. With our Virtual Technician service you can get and up and running faster with on demand troubleshooting. All you need is a cell phone or tablet!
