Third Quarter – 2018

Disclaimers

Main Street Capital Corporation (MAIN) cautions that statements in this presentation that are forward-looking, and provide other than historical information, involve risks and uncertainties that may impact our future results of operations. The forward-looking statements in this presentation are based on current conditions as of November 2, 2018 and include statements regarding our goals, beliefs, strategies and future operating results and cash flows, including but not limited to the equivalent annual yield represented by our dividends declared, the tax attributes of our dividends and the amount of leverage available to us. Although our management believes that the expectations reflected in any forward-looking statements are reasonable, we can give no assurance that those expectations will prove to have been correct. Those statements are made based on various underlying assumptions and are subject to numerous uncertainties and risks, including, without limitation: our continued effectiveness in raising, investing and managing capital; adverse changes in the economy generally or in the industries in which our portfolio companies operate; changes in laws and regulations that may adversely impact our operations or the operations of one or more of our portfolio companies; the operating and financial performance of our portfolio companies; retention of key investment personnel; competitive factors; and such other factors described under the captions "Cautionary Statement Concerning Forward-Looking Statements" and "Risk Factors" included in our filings with the Securities and Exchange Commission (www.sec.gov). We undertake no obligation to update the information contained herein to reflect subsequently occurring events or circumstances, except as required by applicable securities laws and regulations.

This presentation is neither an offer to sell nor a solicitation of an offer to buy MAIN's securities. An offering is made only by an applicable prospectus. This presentation must be read in conjunction with a prospectus in order to fully understand all of the implications and risks of the offering of securities to which the prospectus relates. A copy of such a prospectus must be made available to you in connection with any offering.

The summary descriptions and other information included herein are intended only for informational purposes and convenient reference. The information contained herein is not intended to provide, and should not be relied upon for, accounting, legal or tax advice or investment recommendations. Before making an investment decision with respect to MAIN, investors are advised to carefully review an applicable prospectus to review the risk factors described therein, and to consult with their tax, financial, investment and legal advisors. These materials do not purport to be complete, and are qualified in their entirety by reference to the more detailed disclosures contained in an applicable prospectus and MAIN's related documentation.

Distributable net investment income is net investment income, as determined in accordance with U.S. generally accepted accounting principles, or U.S. GAAP, excluding the impact of share-based compensation expense which is non-cash in nature. MAIN believes presenting distributable net investment income and the related per share amount is useful and appropriate supplemental disclosure of information for analyzing its financial performance since share-based compensation does not require settlement in cash. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income and other earnings measures presented in accordance with U.S. GAAP. Instead, distributable net investment income should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial performance.

Main Street Capital Corporation

Investor Presentation
Corporate Overview

3rd Quarter – 2018

MAIN is a Principal Investor in Private Debt and Equity

Hybrid debt and equity investment strategy, internally managed operating structure and focus on Lower Middle Market differentiates MAIN from other investment firms

Internally-managed Business Development Company (BDC)

- IPO in 2007
- Over \$4.0 billion in capital under management⁽¹⁾
 - Over \$2.8 billion internally at MAIN⁽¹⁾
 - Over \$1.2 billion as a sub-advisor to a third party⁽¹⁾

Invests in the under-served Lower Middle Market (LMM)

- Targets companies with revenue between \$10 million - \$150 million; EBITDA between \$3 million - \$20 million
- Provides single source solutions including a combination of first lien, senior secured debt and equity financing

Debt investments in Middle Market companies

- Issuances of first lien, senior secured and/or rated debt investments
- Larger companies than LMM investment strategy

Debt investments originated in collaboration with other funds

- First lien, senior secured debt investments in privately held companies originated through strategic relationships with other investment funds
- Similar in size, structure and terms to LMM and Middle Market investments

Attractive asset management advisory business

Significant management ownership / investment in MAIN

Headquartered in Houston, Texas

(1) Capital under management includes undrawn portion of debt capital as of September 30, 2018

MAIN is a Principal Investor in Private Debt and Equity

MAIN's unique investment strategy, efficient operating structure and conservative capitalization are designed to provide sustainable, long-term growth in recurring monthly dividends, as well as long-term capital appreciation, to our shareholders

Long-term focus on delivering our shareholders sustainable growth in net asset value and recurring dividends per share

Consistent cash dividend yield – dividends paid monthly

- MAIN has never decreased its monthly dividend rate
- Began paying periodic supplemental dividends in January 2013 and moved to semi-annual supplemental dividends in July 2013

Owns three Small Business Investment Company (SBIC) Funds

- Main Street Mezzanine Fund (2002 vintage), Main Street Capital II (2006 vintage) and Main Street Capital III (2016 vintage)
- Provides access to 10-year, low cost, fixed rate government-backed leverage

Strong capitalization and liquidity position – stable, long-term debt and significant available liquidity to take advantage of opportunities

- Favorable opportunities in capital markets through investment grade rating of BBB/Stable from Standard & Poor's Rating Services
- Total SBIC debenture regulatory financing capacity of \$350.0 million⁽¹⁾

(1) MAIN opportunistically prepaid \$4.0 million of existing SBIC debentures during the quarter ended March 31, 2018. As a result, the current effective maximum amount of SBIC debenture financing capacity under its three existing licenses is \$346.0 million.

MAIN is a Principal Investor in Private Debt and Equity

Focus on LMM equity investments and efficient operating structure differentiates MAIN and provides opportunity for significant total returns for our shareholders

Equity investments in LMM portfolio provide both the opportunity to grow net asset value (NAV) per share and generate realized gains to support dividend growth

- NAV growth of \$11.84 per share (or 92%) since 2007
- Cumulative net realized gains from portfolio investments of \$67.3 million since Initial Public Offering
- Approximately \$3.01 per share in cumulative, pre-tax net unrealized appreciation at September 30, 2018
- Realized gains provide taxable income in excess of net investment income and help fund supplemental dividends

Internally managed operating structure provides significant operating leverage

- Favorable ratio of total operating expenses, excluding interest expense, to average total assets of approximately 1.5%⁽¹⁾
- Greater portion of gross portfolio returns are delivered to our shareholders
- Significant positive impact to Net Investment Income
- Alignment of interests between MAIN management and our shareholders

(1) Based upon the trailing twelve month period ended September 30, 2018

MAIN Strategy Produces Differentiated Returns

Enhanced Value Proposition - Three Ways to Win are Better Than One

1. Sustain and Grow Total Dividends

- Efficient operating structure provides operating leverage to grow distributable net investment income, and dividends paid, as investment portfolio and total investment income grow
- Paid or declared \$24.820 per share in total dividends since October 2007 IPO at \$15.00 per share (\$21.270 per share in regular dividends and \$3.550 per share in supplemental dividends)
- 77% increase in monthly dividends from \$0.330 per share paid in Q4 2007 to declared dividends of \$0.585 per share for Q1 2019
- Never decreased regular monthly dividends (including through 2008/2009 recession) or paid a return of capital distribution
- Supplemental dividends first declared in Q4 2012 primarily due to realized gains from LMM equity component of investment strategy
- Currently transitioning semi-annual supplemental dividends into monthly dividends gradually over time
- Multi-faceted investment strategy supports growth of total dividends over various cycles and markets

2. Meaningfully Grow Net Asset Value (“NAV”) Per Share

- \$12.85 at December 31, 2007 to \$24.69 at September 30, 2018 – 92% growth; CAGR of 6.3%
- Represents incremental economic return to investors beyond dividends
- MAIN’s debt-focused peers (which comprises most BDCs) cannot generate NAV per share growth through the cycles
- Unrealized appreciation is a good proxy for future dividend growth without the need for additional capital through growing portfolio dividend income and harvested realized gains from equity investments
- Ability to grow NAV per share provides opportunity for MAIN stock share price appreciation and additional shareholder returns

3. Supplement Growth in Distributable Net Investment Income with Periodic Realized Gains

- LMM equity component of investment strategy provides opportunity for meaningful realized gains (analogous to PIK income on debt investments from cash flow perspective, but more tax efficient and without cap on upside)
- Realized gains validate the quality of MAIN’s unrealized appreciation
- Realized gains can be paid to shareholders as dividends or retained for future reinvestment due to MAIN’s unique tax structure

Historical Dividend, Distributable Net Investment Income (“DNII”) and Net Asset Value (“NAV”) Per Share Growth

MAIN’s unique focus on equity investments in the Lower Middle Market provides the opportunity for significant NAV per share growth

MAIN’s efficient operating structure provides significant operating leverage, greater dividends and greater overall returns for our shareholders

MAIN’s dividends have been covered by DNII and net realized gains – MAIN has never paid a return of capital distribution

- Includes recurring monthly and semi-annual supplemental dividends paid and declared as of November 1, 2018.
- Annual return on equity averaging approximately 14.0% from 2010 through the third quarter of 2018

Lower Middle Market (LMM) Investment Strategy

LMM investment strategy differentiates MAIN from its competitors and provides attractive risk-adjusted returns

Investment Objectives

- High cash yield from secured debt investments (11.5% weighted-average cash coupon as of September 30, 2018); plus
- Dividend income and periodic capital gains from equity investments

Investments are structured for (i) protection of capital, (ii) high recurring income and (iii) meaningful capital gain opportunity

Focus on self-sponsored, “one stop” financing opportunities

- Partner with business owners and entrepreneurs
- Recapitalization, buyout, growth and acquisition capital
- Extensive network of grass roots referral sources
- Strong and growing “Main Street” brand recognition / reputation

Provide customized financing solutions

Investments have low correlation to the broader debt and equity markets and attractive risk-adjusted returns

LMM Investment Opportunity

MAIN targets LMM investments in established, profitable companies

Characteristics of LMM provide beneficial risk-reward investment opportunities

Large and critical portion of U.S. economy

- 175,000+ domestic LMM businesses⁽¹⁾

LMM is under-served from a capital perspective and less competitive

Inefficient asset class generates pricing inefficiencies

- Typical entry enterprise values between 4.5X – 6.5X EBITDA
- Typical entry leverage multiples between 2.0X – 4.0X EBITDA to MAIN debt investment

Partner relationship with the management teams of our portfolio companies vs. a “commoditized vendor of capital”

(1) Source: U.S. Census 2012 – U.S. Data Table by Enterprise Receipt Size; 2012 County Business Patterns and 2012 Economic Census; includes Number of Firms with Enterprise Receipt Size between \$10,000,000 and \$99,999,999

Middle Market Debt Investment Strategy

MAIN maintains a portfolio of debt investments in Middle Market companies

Investment Objective

- Generate cash yield to support MAIN monthly dividend

Investments in secured and/or rated debt investments

- First lien, senior secured debt investments
- Floating rate debt investments

Larger companies than the LMM investment strategy

- Current Middle Market portfolio companies have weighted-average EBITDA of approximately \$89.7 million

Large and critical portion of U.S. economy

- Nearly 200,000 domestic Middle Market businesses⁽¹⁾

More relative liquidity than LMM investments

6% – 10% targeted gross yields

- Weighted-average effective yield⁽²⁾ of 9.4%
- Net returns positively impacted by lower overhead requirements and modest use of leverage
- Floating rate debt investments provide the opportunity for positive impact on yields if market benchmark interest rates increase

(1) Source: National Center for The Middle Market; includes number of U.S. domestic businesses with revenues between \$10 million and \$1 billion

(2) Weighted-average effective yield includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

Private Loan Investment Strategy

Private Loan portfolio investments are primarily debt investments in privately held companies which have been originated through strategic relationships with other investment funds on a collaborative basis, and are often referred to in the debt markets as “club deals”

Investment Objectives

- Access proprietary investments with attractive risk-adjusted return characteristics
- Generate cash yield to support MAIN monthly dividend

Investment Characteristics

- Investments in companies that are consistent with the size of companies in our LMM and Middle Market portfolios
- Proprietary investments originated through strategic relationships with other investment funds on a collaborative basis
- Current Private Loan portfolio companies have weighted-average EBITDA of approximately \$46.2 million⁽¹⁾

Investments in secured debt investments

- First lien, senior secured debt investments
- Floating rate debt investments

8% – 12% targeted gross yields

- Weighted-average effective yield of 10.1%
- Net returns positively impacted by lower overhead requirements and modest use of leverage
- Floating rate debt investments provide the opportunity for positive impact on yields if market benchmark interest rates increase

(1) This calculation excludes three Private Loan portfolio companies as EBITDA is not a meaningful metric for these portfolio companies

Asset Management Business

MAIN's asset management business represents additional income diversification and the opportunity for greater shareholder returns

MAIN's internally managed operating structure provides MAIN's shareholders the benefits of this asset management business

In May 2012, MAIN⁽¹⁾ entered into an investment sub-advisory agreement with the investment advisor to HMS Income Fund, Inc., a non-listed BDC

- MAIN⁽¹⁾ provides asset management services, including sourcing, diligence and post-investment monitoring
- MAIN⁽¹⁾ receives 50% of the investment advisor's base management fee and incentive fees
 - MAIN⁽¹⁾ base management fee – 1% of total assets
 - MAIN⁽¹⁾ incentive fees – 10% of net investment income above a hurdle and 10% of net realized capital gains

Benefits to MAIN

- No significant increases to MAIN's operating costs to provide services (utilize existing infrastructure and leverage fixed costs)
- No invested capital – monetizing the value of MAIN franchise
- Significant positive impact on MAIN's financial results
 - \$2.7 million contribution to net investment income in the third quarter of 2018⁽²⁾
 - \$8.0 million contribution to net investment income for the nine months ended September 30, 2018⁽²⁾
 - \$9.4 million contribution to net investment income for the year ended December 31, 2017⁽²⁾
 - \$70.1 million of cumulative unrealized appreciation as of September 30, 2018

(1) Through MAIN's wholly owned unconsolidated subsidiary, MSC Advisor I, LLC

(2) Contribution to Net Investment Income includes (a) dividend income received by MAIN from MSC Advisor I, LLC and (b) operating expenses allocated from MAIN to MSC Advisor I, LLC

MAIN Regulatory Framework

Highly regulated structure provides significant advantages and protections to our shareholders, including investment transparency, tax efficiency and beneficial leverage

Operates as a Business Development Company

- Regulated by Securities and Exchange Commission - 1940 Act
- Publicly-traded, private investment company

Regulated Investment Company (RIC) tax structure

- Eliminates corporate level income tax
- Efficient tax structure providing high yield to investors
- Passes through capital gains to investors

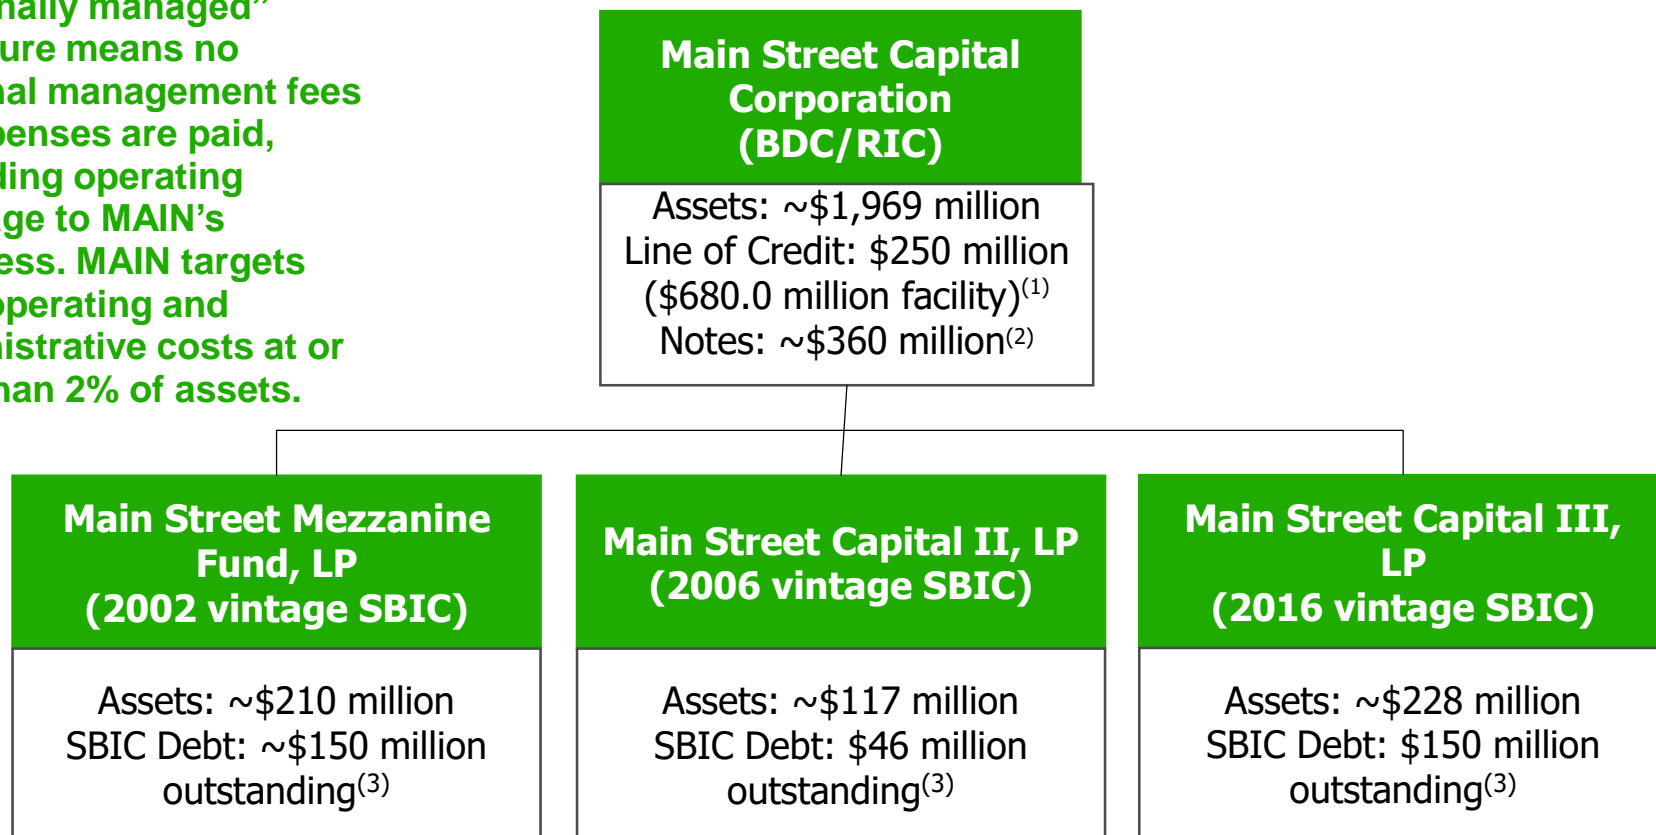

Small Business Investment Company (SBIC) subsidiaries

- Regulated by the U.S. Small Business Administration (SBA)
- Access to low cost, fixed rate, long-term leverage
- Total SBIC debenture regulatory financing capacity of \$350.0 million⁽¹⁾
- Total outstanding leverage of \$345.8 million through our three wholly owned SBIC Funds⁽¹⁾
- MAIN is a previous SBIC of the Year Award recipient

(1) MAIN opportunistically prepaid \$4.0 million of existing SBIC debentures during the quarter ended March 31, 2018. As a result, the current effective maximum amount of SBIC debenture financing capacity under its three existing licenses is \$346.0 million.

MAIN Corporate Structure – Internally Managed

“Internally managed” structure means no external management fees or expenses are paid, providing operating leverage to MAIN’s business. MAIN targets total operating and administrative costs at or less than 2% of assets.

(1) As of September 30, 2018, MAIN’s credit facility had \$680.0 million in total commitments; MAIN’s credit facility includes an accordion feature which could increase total commitments up to \$800.0 million.

(2) \$185.0 million of 4.50% Notes due December 2022 and \$175.0 million of 4.50% Notes due December 2019.

(3) MAIN opportunistically prepaid \$4.0 million of existing SBIC debentures during the quarter ended March 31, 2018. As a result, the current effective maximum amount of SBIC debenture financing capacity under its three existing licenses is \$346.0 million.

Post-IPO TTM Dividends Per Share – Sustainable Growth

Cumulative dividends paid or declared from October 2007 IPO (at \$15.00 per share) through Q1 2019 equal \$24.820 per share⁽¹⁾

Recurring monthly dividend has never been decreased and has shown meaningful (77%) growth since IPO

Based upon the current annualized monthly dividends for the first quarter of 2019 and the annualized semi-annual supplemental dividend declared for December 2018, the annual effective yield on MAIN's stock is 7.7%⁽³⁾, or 6.3%⁽³⁾ if the supplemental dividends are excluded

(1) Based upon dividends which have been paid or declared as of November 1, 2018

(2) Includes supplemental dividends which have been paid or declared as of November 1, 2018, with Q1 2019 assuming a TTM supplemental dividend run rate of \$0.55 per share.

(3) Based upon the closing market price of \$37.33 on October 31, 2018

Transition of Supplemental Dividends into Monthly Dividends

MAIN has concluded that it is in position to begin the conversion of its supplemental dividends into monthly dividends over multiple years beginning in 2019

MAIN intends for the transition to allow MAIN to continue to grow its total annual dividends, while providing additional clarity of MAIN's dividend policy

Background and History

- MAIN declared its first supplemental dividend in Q4 2012
- MAIN was primarily investing in LMM debt and equity prior to 2012, without the added investment income from its MM and PL debt portfolios
- MAIN generated substantial realized gains from its LMM equity investments, many held at the RIC entity, and was required to pay out these gains in the form of monthly dividends or supplemental dividends to maintain its RIC tax status
- In 2012 MAIN chose supplemental dividends to better match the periodic nature of the realized gains
- MAIN's business model and investment portfolio has matured since 2012, and MAIN has concluded it is time to begin the conversion to monthly dividends only
 - Increased size and diversity of MAIN's investment portfolio, including the growth of the MM and PL debt portfolios
 - Increase in the number of direct LMM equity investments held at various MAIN taxable entities, versus the RIC entity, due to RIC tax rules and regulations
 - Combination of growth and improved consistency and diversity of the sources of MAIN's investment income
 - Growth of investment income that exceeds the growth of MAIN's monthly dividends
 - Increasing dividend income from LMM portfolio equity investments and long-term desired holding period of these equity investments

Transition Plans

- MAIN currently intends to gradually convert its supplemental dividends into its monthly dividends over multiple years until the supplemental dividends are completely absorbed into the monthly dividends
- MAIN intends to maintain its historical growth rate in total dividends paid
- Goal is to have a dividend policy that is easier to understand and that allows third parties to accurately reflect MAIN's total dividend yield
- Transition should enhance the opportunity for MAIN to retain a portion of its realized gains through its various taxable entities for future reinvestment and additional investment income growth

Total Investment Portfolio

Diversity provides structural protection to investment portfolio, revenue sources, income, cash flows and shareholder dividends

Includes complementary LMM debt and equity investments, Middle Market debt investments and Private Loan debt investments

Total investment portfolio at fair value consists of approximately 47% LMM / 25% Middle Market / 20% Private Loan / 8% Other⁽¹⁾ Portfolio investments

182 LMM, Middle Market and Private Loan portfolio companies

- Average investment size of \$11.5 million
- Largest individual portfolio company represents 6.8%⁽²⁾ of total investment income and 2.6% of total portfolio fair value (most investments are less than 1%)
- Five non-accrual investments, which represent 1.2% of the total investment portfolio at fair value and 3.5% at cost.
- Weighted-average effective yield of 10.6%

Significant diversification

- Issuer
- Industry
- Transaction type
- Geography
- End markets
- Vintage

LMM Investment Portfolio

LMM Investment Portfolio consists of a diversified mix of secured debt and lower cost basis equity investments

70 portfolio companies / \$1,149.0 million in fair value

- 47% of total investment portfolio at fair value

Debt yielding 12.2% (69% of LMM portfolio at cost)

- 98% of debt investments have first lien position
- 56% of debt investments earn fixed-rate interest
- Approximately 850 basis point net interest margin vs. “matched” fixed interest rate on SBIC debentures

Equity in 99% of LMM portfolio companies representing 39% average ownership position (31% of LMM portfolio at cost)

- Opportunity for fair value appreciation, capital gains and cash dividend income
- 59% of LMM companies⁽¹⁾ with direct equity investment are currently paying dividends
- Fair value appreciation of equity investments supports Net Asset Value per share growth
- Lower entry multiple valuations, lower cost basis
- \$183.6 million, or \$3.01 per share, of cumulative pre-tax net unrealized appreciation at September 30, 2018

(1) Includes the LMM companies which (a) MAIN is invested in direct equity and (b) are treated as flow-through entities for tax purposes; based upon dividend income for the trailing twelve month period ended September 30, 2018

LMM Investment Portfolio

LMM Investment Portfolio is a pool of high quality, seasoned assets with attractive risk-adjusted return characteristics

Median LMM portfolio credit statistics:

- Senior leverage of 3.1x EBITDA to MAIN debt position
- 2.7x EBITDA to senior interest coverage
- Total leverage of 3.1x EBITDA including debt junior in priority to MAIN
- Free cash flow de-leveraging improves credit metrics and increases equity appreciation

Average investment size of \$13.8 million (less than 1% of total investment portfolio)

Opportunistic, selective posture toward new investment activity over the economic cycle

High quality, seasoned LMM portfolio

- Total LMM portfolio investments at fair value equals 119% of cost
- Equity component of LMM portfolio at fair value equals 173% of cost

Since 2007, MAIN has accretively grown Portfolio Investments by 2196%, (or by 238% on a per share basis) and DNII per share by 257%

(1) DNII per share for the trailing twelve month period ended September 30, 2018

Efficient and Leverageable Operating Structure

MAIN's internally managed operating structure provides significant operating leverage and greater returns for our shareholders

“Internally managed” structure means no external management fees or expenses are paid

Alignment of interest between management and investors

- Greater incentives to maximize increases to shareholder value and rationalize debt and equity capital raises
- 100% of MAIN's management efforts and activities are for the benefit of the BDC

MAIN targets total operating expenses⁽¹⁾ as a percentage of average assets (Operating Expense to Assets Ratio) at or less than 2%

- Long-term actual results have significantly outperformed target
- Industry leading Operating Expense to Assets Ratio of 1.5%⁽²⁾

Significant portion of total operating expenses are non-cash

- Non-cash expense for restricted stock amortization was 12.0%⁽²⁾ of total operating expenses
- Operating Expense to Assets Ratio of 1.1%⁽²⁾ excluding non-cash restricted stock amortization expense

(1) Total operating expenses, including non-cash share based compensation expense and excluding interest expense

(1) As of September 30, 2018, MAIN's credit facility had \$680.0 million in total commitments with an accordion feature to increase up to \$800.0 million. Borrowings under this facility are available to provide additional liquidity for investment and operational activities.

(2) SBIC Debentures are not included as "senior debt" for purposes of the BDC 200% asset coverage requirements pursuant to exemptive relief received by MAIN. Debt to NAV Ratio is calculated based upon the par value of debt.

(3) Non-SBIC Debt to NAV Ratio is calculated based upon the par value of debt.

(4) Net debt in this ratio includes par value of debt less cash and cash equivalents.

(5) DNII + interest expense / interest expense on a trailing twelve month basis.

Stable, Long-Term Leverage – Significant Unused Capacity

MAIN maintains a conservative capital structure, with limited overall leverage and low cost, long-term debt

Capital structure is designed to match expected duration and fixed/floating rate nature of investment portfolio assets

Facility	Interest Rate	Maturity	Principal Drawn
\$680.0 million Credit Facility ⁽¹⁾	L+1.875% floating (4.0% as of September 30, 2018)	September 2023 (fully revolving until maturity)	\$250.0 million
Notes Payable	4.50% fixed	Redeemable at MAIN's option at any time, subject to certain make whole provisions; Matures December 1, 2019	\$175.0 million
Notes Payable	4.50% fixed	Redeemable at MAIN's option at any time, subject to certain make whole provisions; Matures December 1, 2022	\$185.0 million
SBIC Debentures	3.7% fixed (weighted average)	Various dates between 2019 - 2028 (weighted average duration = 5.9 years)	\$345.8 million

(1) As of September 30, 2018, MAIN's credit facility had \$680.0 million in total commitments from 17 relationship banks, with an accordion feature which could increase total commitments up to \$800.0 million.

Long-term Maturity of Debt Obligations

MAIN's conservative capital structure provides long-term access to attractively-priced and structured debt facilities

- Allows for investments in assets with long-term holding periods / illiquid positions and greater yields and overall returns
- Provides downside protection and liquidity through economic cycles
- Allows MAIN to be opportunistic during periods of economic uncertainty

(1) Based upon outstanding balance as of September 30, 2018; total commitments at September 30, 2018 were \$680.0 million.

(2) Issued in November 2014; redeemable at MAIN's option at any time, subject to certain make whole provisions

(3) Issued in November 2017; redeemable at MAIN's option at any time, subject to certain make whole provisions

Positive Impact from Rising Interest Rates

MAIN's capital structure and investment portfolio provides downside protection and the opportunity for significant benefits from a rising interest rate environment

- 74% of MAIN's outstanding debt obligations have fixed interest rates⁽³⁾, limiting the increase in interest expense
- 72% of MAIN's debt investments bear interest at floating rates⁽³⁾, the majority of which contain contractual minimum index rates, or "interest rate floors" (weighted-average floor of approximately 105 basis points)⁽⁴⁾
- Provides MAIN the opportunity to achieve significant increases in net investment income if interest rates rise

The following table illustrates the approximate annual changes in the components of MAIN's net investment income due to hypothetical increases (decreases) in interest rates⁽¹⁾ (dollars in thousands):

Basis Point Increase (Decrease) in Interest Rate	Increase (Decrease) in Interest Income	(Increase) Decrease in Interest Expense ⁽²⁾	Increase (Decrease) in Net Investment Income	Increase (Decrease) in Net Investment Income per Share ⁽⁵⁾
(50)	\$ (6,301)	\$ 1,250	\$ (5,051)	\$ (0.08)
(25)	(3,172)	625	(2,547)	(0.04)

400	50,960	(10,000)	40,960	0.67

- Assumes no changes in the portfolio investments, outstanding revolving credit facility borrowings or other debt obligations existing as of September 30, 2018
- The hypothetical (increase) decrease in interest expense would be impacted by the changes in the amount of debt outstanding under our revolving credit facility, with interest expense (increasing) decreasing as the debt outstanding under our revolving credit facility increases (decreases)
- As of September 30, 2018
- Weighted-average interest rate floor calculated based on debt principal balances as of September 30, 2018
- Per share amount is calculated using shares outstanding as of September 30, 2018

Significant Management Ownership / Investment

Significant equity ownership by MAIN's management team, coupled with internally managed structure, provides alignment of interest between MAIN's management and our shareholders

	# of Shares ⁽²⁾	September 30, 2018 ⁽³⁾
Management ⁽¹⁾	3,283,208	\$126,403,508

(1) Includes members of MAIN's executive and senior management team and the members of MAIN's Board of Directors.

(2) Includes 1,124,079 shares, or approximately \$27.6 million, purchased by Management as part of, or subsequent to, the MAIN IPO, including 11,808 shares, or approximately \$0.5 million, purchased in the quarter ended September 30, 2018.

(3) Based upon closing market price of \$38.50/share on September 30, 2018.
