

COVID-19 Update

A common challenge, like the one being experienced with the Coronavirus outbreak, brings out the resilience, unity and kindness of people. During this time of fear and uncertainty, our deepest thoughts are with those who have been directly or indirectly affected by COVID-19. We ask that you please continue to follow government guidelines carefully to ensure the safety of you and your loved ones.

As a company, we are taking all precautions possible to protect our team. Our Rural Hospitals and Clinics in Tennessee are working closely with local authorities to best protect our patients, our employees and the communities we serve. We appreciate the dedication of our employees and all medical staff during this time.

Renova Health Facilities

We continue to follow our thorough infectious disease processes while adapting our operations to meet local government guidelines. For the protection of our patients, employees and community, we would ask anyone attending our facilities with a patient to wait outside unless there is a medical reason for them to enter the Emergency Room. If medically necessary, only one helper/visitor is allowed in our Emergency Rooms with a patient.

During this period of emergency and heightened vigilance all visitors at any of our facilities are being screened by hospital personnel prior to entering any area where they would come in contact with patients. We appreciate everyone's co-operation with this screening process and adherence with all policies and requests from our staff as we endeavor to keep everyone safe.
